ZIVA LIFE

About ZIVA

Founded in 2006, in bustling Shanghai by British born and long time China resident, David Barr. Involved in the fitness industry for over 11 years, David founded Olympic International Limited (a leading fitness trading company) in 1997 based out of Hong Kong and Shanghai. David and Olympic have been working with some of the worlds leading fitness companies and retailers for over a decade. His drive and passion have pushed far him within the industry, but his forward thinking and vision has led him to developing a brand of his own, Ziva. The Ziva brand is born, and has been developing faster than anyone could have imagined.

Current successes in the home consumer market has led to aspirations to grow. Ziva now enters the commercial side of the industry with a mission statement to sell directly from Shanghai and offer new, innovative, and functional fitness products direct from the source. Already garnering the trust and confidence of major players in the industry, Ziva is now collaborating with quality brands like Technogym (the worlds leading fitness equipment company). Building ever more momentum, Ziva will be the brand to keep an eye on in the near future.

Manufacturing

Ziva has dedicated factories that we've been developing and working with for over the last 10 years (As Olympic Int., Ltd.). The only fitness company offering a factory direct service without agents or trading companies in between. Buying from Ziva is buying directly from the factory.

Warehouse

Ziva has warehouse facilities in Nantong and Shanghai, China. We keep a revolving stock of almost all major items. This means shorter lead times and turn around times for all orders. Plans are being developed for additional warehousing in Europe for the end of 2009.

ZDC

A principle asset of Ziva is the innovation and creative development of Ziva Design Centre (ZDC). Using marketing information supplied by our partners, ZDC is able to greatly reduce the development cycle of a product and generates many cost and time-to-market advantages. Using an in-house design team setup by ZDC, our proximity to our factories and manufacturers involved in prototyping and production of final products allows us to introduce and propel new technologies directly China.

ZIVA LIFE (CONT.)

Our team consists of a diverse collection of creatives and technical personal. Graphic and industrial designers from the USA, Australia, and teamed with local developed talent from China work on conceptualizing innovative new products, forms, processes, materials, ergonomics, brand strategies, and market driven designs and packaging. ZDC engineers translate these concepts into finished, quality, long-lasting products using the latest leading edge materials, manufactured cost effectively.

The first fruits of the ZDC's labors are the new Ziva Zvolution (ZVO) Series *patent pending* discs, barbells, dumbbells, and studio accessories. By the end of 2009 Ziva will have a new line of storage racks and benches.

Technogym

Since 2008 Ziva has been the official partner and supplier to Technogym (official supplier to the 2008 Beijing Olympics) in China. The alliance built upon the growing confidence and trust in Ziva, has been a prodigious step in the growth of our brand and company internationally and within industry insiders.

One Wellness Showroom

Technogym and Ziva's collaboration can be seen in person at the One Wellness fitness club in Shanghai. The 800m2 club is an operational, functioning showroom. One Wellness has become Shanghai's premier boutique fitness club boasting the best of Technogym and Ziva's equipment.

An Evolution in wellness has commenced directly from within Shanghai.

"Life and sport is about realizing the magnitude of the moment, the limitless potential of the mind and body, living your dreams and taking your chances now. . . ."

One body, one life.

AN EVOLUTION IN WELLNESS

ZVO SERIES

ZIVA™ ZVO Series patent pending.

ZVOLUTION SERIES INTRODUCTION

One of humans' most defining features are our hands. When running and holding a weight in hands, fatigue becomes probable. To prevent gripping fatigue from a constant shape like a cylinder, we have designed a grip with a variable, hand based section. This allows a variety of positioning in the hand during long term exercise. Fitting the curve of the fingers and palms of your hand, the ZIVA ZVO line feels good and makes long duration exercise more comfortable. Additionally the movement of the hands promotes flexibility of the fingers and strength.

We build and shape our bodies through dynamic and energetic movement of mass, as designers we included this philosophy into the shape of our new ZVO line. The flow and motion of the basic element, the triangle. We take the static and put it into motion.

Extending these shapes across the line of wellness, the ZIVA ZVO line changes the relationship of the user to the action in a positive way, making exercise a tactile set of movements.

Using possibilities in modern manufacturing we push the boundaries of design, defining modern wellness and fitness equipment. With a blend of traditional design tools and modern software, we have created the leading wellness and fitness lines in terms of streamlined aesthetics and functions. An evolution of wellness.

Evolution (ZVO) Series rubber dumbbells and barbells feature innovative designs and high end technology with solid PU end caps, ergonomically contoured handles press fit onto solid cast heads, and come in a choice of virgin rubber or quality PU.

ZVO Series olympic grip discs features precision casting, choice of virgin rubber, or quality PU, and solid stainless steel inserts.

PVC weight ID inserts come in three different colors, yellow, blue and red for a customized look and feel.

ZVO Series Rubber products have a limited 1 year warranty, ZVO series PU products have a limited 2 year warranty.

SELECT SERIES

Select Series solid end rubber dumbbells and barbells feature a stylish, durable black rubber finish that doesn't chip or damage flooring, and eliminates the clanking sounds of old metal weights. The unique J-Lock system helps prevent loosening of dumbbell and barbell heads and minimizes maintenance. Chrome easy grip handles for user comfort.

Select Series rubber olympic grip discs feature the unique 3 contoured handgrips, eliminating "nipped" fingers and enables easy safe lifting. Olympic sized solid stainless steel insert centers.

Weight ID inserts come in three different colors, yellow, blue and red for a customized look and feel.

Select Series products have a limited 1 year warranty.

WARRANTY

ZIVA carry a limited 12 month parts warranty against faulty workmanship for the original purchaser for all rubber products, standard racks and benches and 2 years for all PU products and Performance series racks and benches (90 days for upholstery). ZIVA will repair or replace any item (as per the above) that can be shown to have broken manufacturing faults, provided the customer returns it to

ZIVA for our inspection. Rubber products are not intended for use on concrete floors, wood floors or especially hard rubber surfaces. Use of rubber covered free weights on these floors will void the warranty. It is highly recommended that the correct rubber free weight flooring is used. The warranty excludes the Neoprene covered surface on Kettlebells and Studio Dumbbells.

Note: Rubber products should not be cleaned with detergent or acetone-based cleaners. Please clean rubber products with a damp cloth only. Dumbbells and barbells should be hand checked for tightness on a daily basis and tightened as required. Loosening of multi disc dumbbells is not covered by warranty as this style of dumbbell requires occasional maintenance. ZIVA dumbbells are designed for years of heavy use, however are not designed to be dropped, thrown or otherwise abused. Repeated misuse may result in bent handles. Dumbbells showing signs of bent handles may be excluded from warranty at the discretion of ZIVA.

PLEASE NOTE:

- Warranty extends to original purchaser only and is non-transferable.

- Warranty time is from the original date of purchase.
- Warranty shall not apply if the defect was caused by misuse, neglect, or normal wear and tear.
- In order to process warranty claim, item/s must be returned to ZIVA for inspection along with a returns reference number provided by ZIVA.
- Warranty does not cover transport costs. In cases where it is not economic to return multiple items we will ask for a part return supported by photographic evidence.
- Home or light commercial use products used in a commercial environment will not be covered by the warranty. If your facility is bereft of procedures/guidelines to control the misuse use of dumbbells, barbells and/or plates, ZIVA would rather not accept the order. Free weights go through probably the most extreme life of any fitness product, a correct maintenance program along with good exercise technique will prolong the life of the product significantly.

Please feel free to visit www.zivalife.cn for helpful maintenance information. If you have further questions please e-mail us at: service@zivalife.cn

DELIVERY

All orders are processed and shipped in the order that they are received.

All orders are received on a FOB CHINA Basis.

Normal delivery time is EX CHINA PORT 35 Days after receipt of the PURCHASE ORDER.

Delivery times may increase around China National holidays and peak shipping seasons.

The freight delivery service you receive may vary with different carrier companies. Carrier must be taken up direct with the carrier. Time for delivery is given as accurately as possible, but is not guaranteed, and is subjected to extension to cover delay caused by strikes, lock-outs, works, breakdowns, delay in transport, shortage of raw materials, Government regulations or requirements, or any cause beyond our control (whether or not similar to those above-mentioned) .

All delivery lead times are strictly ex-China,

Law and Jurisdiction - Where the buyer is a business, this contract is to be interpreted according to Peoples Republic of China law and the parties agree that the

Peoples Republic of China courts shall have exclusive jurisdiction for the settlement of any dispute arising from this agreement Without prejudice to the previous statement, ZIVA shall also have the right to file suit against the Buyer either in the China courts or wherever the Buyer is located or has a registered and/or branch office. In any event, the parties irrevocably agree that proceedings issued out of the said courts may, without prejudice to the rules of service of any court or jurisdiction, be served by delivering such proceedings in an envelope addressed to the party to be served at the address for such party set out in this contract or otherwise notified by that party to the other. All orders are accepted on the following Terms and Conditions of Trading. All orders are to be sent in writing either via email or fax and include product codes. General – In the event of any conflict of inconsistency between these Terms and Conditions of Trading, and the terms of your order, these terms prevail, unless agreed by us in writing. No alterations to your order will be recognised by us unless requested by you in writing and confirmed by us in the same way.

Acceptance – No order shall be deemed accepted by ZIVA other than upon receipt of our official acknowledgement.

Description – All descriptions and particulars furnished in price lists, literature and other documents issued by us are as accurate as possible, but being given for general information are not to be treated as binding unless specifically confirmed in writing. Any performance figures by us are based upon our general experience and are such as we expect to achieve. ZIVA will, however, accept no liability if those are not obtained unless we specifically guarantee them in writing.

Cancellation after delivery, and/ or after delivery and installation, cannot be accepted and payment must be made in full. Any delays for the shipment of orders caused by late payments being received for any reason are strictly the responsibility of the buyer.

Storage – We reserve the right to charge storage where the customer delays shipment after the date of shipment requested by the customer has passed and proof of the orders production has been made.

Repossession by Seller – Where the buyer has committed an Act of Bankruptcy (or where the buyer is a limited company, a receiving or winding up order has been made with respect of that Company) and property in goods the

subject of this contract has not passed to the buyer but remains with seller, the buyer shall, within twenty one days of such Act or Order, give notice in writing of the same to the seller and shall afford the seller reasonable opportunity and access to repossess the said goods.
